

Platform: macOS Mojave v 10.14.4

Language: Python

IDE: PyCharm - executed through terminal

Output

Pinging 127.0.1

Pinging 64.233.177.101 using Python:

```
0.00013279914856
0.000152826309204
0.000126123428345
0.000143051147461
0.000113964080811
```

Pinging amazon.com

Pinging 205.251.242.103 using Python:

```
0.000366926193237
0.000149965286255
0.000183820724487
0.000158071517944
0.000148057937622
0.000155925750732
```

Pinging msstate.edu - every once in awhile, an extremely small number gets pinged back (like in line 1 of pinging msstate.edu), and I am not sure why.

Pinging 130.18.80.20 using Python:

```
8.60691070557e-05
0.000244140625
0.000160932540894
0.000201940536499
0.000108003616333
0.000151872634888
```
